

140mm

A technical drawing of a mechanical component. The component consists of a base plate and a vertical assembly. The base plate is a thin, horizontal rectangular plate. The vertical assembly is mounted on the base plate and features a central, rounded, dome-like structure with a hexagonal hole in its center. Above this dome is a rectangular section containing two hexagonal holes, one above the other. The overall height of the component is indicated as 140mm, and the overall width of the base plate is indicated as 153mm.
